WANTED

SERIOUS CUSTOMERS FOR SERIOUS EXONUMIA!

For 35 years, PRESIDENTIAL has been known for selling the finest-quality tokens and medals in a wide variety of collecting fields. Through the years, we have handled major rarities in virtually every token and medal collecting area of significance. Below are just a few of the areas in which we deal extensively.

- **Hard Times & 19th Century Merchant Tokens**
- **Betts Medals**
- **Civil War Tokens**
- **Indian Peace Medals**
- **Transportation Tokens**
- **U.S. Mint Medals**
- **So-Called Dollars**
- **World's Fair & Exposition Items**
- **Political Americana (all kinds)**
- **Art Medals**
- **Official Presidential Inaugural Medals**

AT AUCTION

We offer material from all of the above areas—and more. We conduct a major sale each year at the Baltimore Coin & Currency Convention. The subscription fee of $10 brings you three sale catalogs, plus prices realized. New TAMS members who have never before received our sales notices can request a complimentary copy of our next sale.

PRIVATE TREATY SALES

On May 1, 2005, we closed our retail store and now conduct our business solely through the mail, the Internet, at the occasional show and at auction. We actively buy and sell on eBay under the name "Medalsman." We will be pleased to receive your want list.

WE ARE BUYING

As much as we would like it to be otherwise, we operate in a relatively thin market. The majority of coin dealers could care less about tokens and medals, and their buying prices reflect that disinterest. PRESIDENTIAL has specialized in the token and medal field for more than 30 years and is in a position to offer fair and knowledgeable prices for your material. If you would rather sell at auction, there is no better vehicle than our professionally cataloged, illustrated sales. Our commission rate is a reasonable 10%, and payment is made promptly 45 days after the close of the sale.

Why Not Tokens and Medals?

If you are new to numismatics or have tired of the sameness of coin collecting, add life to your hobby by pursuing the vast variety of tokens and medals.

Tokens and medals preserve history in a way coins do not. Tokens are colorful slices of everyday life you can enjoy and treasure. Medals capture history by commemorating important events, places and persons. In addition, their beautiful designs make them miniature works of art.

Whether your interest is numismatics, history, art or commerce, we invite you to join the **Token and Medal Society**. Through our member network, publications, library, awards program and bimonthly *TAMS Journal*, you will experience virtually unlimited collecting opportunities, broaden your knowledge and reconnect with the hobby.

FROM THE PRESIDENT

Peter Irion

GREETINGS FROM VERMONT on another windy and sleeting December evening. We have been experiencing some very strong winds here recently, and we lost power at home for 3½ days last week. I am thankful that I have a portable generator to keep things going at home.

I again have a lot to report at this time. I recently returned from a really fun trip to Dearborn, Michigan for the 55th annual Michigan State Numismatic Society Convention. The special reason to make this long trip was to attend a special banquet organized by Kathy Freeland and Cliff Mishler to celebrate the 50th anniversary of TAMS, as well as the 45th anniversary of Mich-TAMS. It was a wonderful event, with about 70 guests attending.

We heard many interesting recollections about the early days of TAMS, and I was honored to meet so many nice people from Michigan with whom I had only corresponded in the past, including Paul Manderscheid, Ernie Nagy and Mel Reiter. I was extremely saddened to hear that Mel Reiter passed away three days after the banquet, and I feel blessed that I was able to meet him at least for a short time and share stories.

Mark Lighterman and his mother, Myrna, get the honors for driving the longest distance—all the way from Florida in some really lousy weather—to attend this special celebration banquet. (Mark was the official banquet photographer and some of his photos can be found below.)

A special feature of the banquet was the fund-raising auction of two different highly-treasured TAMS "tam o'shanters." Mark Lighterman was the proud winner of the tam originally owned by Ben Odesser, and I believe Tom Klunzinger won the tam previously owned by Cindy Wibker. I am glad both of these treasures have gone to good homes.

At this time, I would like to remind you to pay your 2011 dues now, if you already have not done so. Please try to get your payments in as quickly as possible. To make it easy for some computer users, you may pay your dues using PayPal. Canadians members, please pay the same rate as for U.S. members. I also would like to remind everyone that David Schenkman has generously offered a free token catalog to all members signing up for three or more years. This is a great offer, as Dave's books are the hobby standards for several of the series he has cataloged.

Our financial situation is not very strong at the present time. We do not have a lot of money in the bank, but we do have a huge inventory of TAMS published books. A lot of our assets are tied up in books, and we need to sell more. Please consider building up your library by purchasing some of the TAMS-published books we have listed in the ad in this *TAMS Journal*. Please note that our newest book is *West Virginia Merchant Tokens*, which is essential for collectors of state merchant and trade tokens. (Plus, TAMS books make great birthday or holiday presents.)

As I mentioned in the last issue, TAMS Secretary Rachel Irish has decided to hand over the reins to someone else at the end of December. She really has done a great job, and TAMS is extremely lucky to have had Rachel serve our society for such a long time. She offered to support the transition as much as possible and will stay on through the 2011 dues payment phase. Many thanks, Rachel!

I encourage everyone with a computer to visit our TAMS website at *www.tokenandmedal.org*. Bill Hyder is constantly adding new features and information to the website, and he and John Mutch are actively working to load up information about the TAMS Mavericks. The website is getting a lot of "hits" or visits, and if anyone has suggestions, please feel free to contact Bill Hyder directly at bsktmkr@packbell.net.

TAMS members and dealers are welcome to add links to their own websites (such as Dave Baldwin's new website on Lovett tokens and medals). Authors of new exonumia books also are invited to submit information about their new books.

Don Young has been working hard on getting the final orders for this year's special 50th anniversary TAMS Assemblage medal processed. The final, small run of medals will be struck and shipped out in 5-7 weeks. Since we advertised these medals, the price of silver has sky-

PHOTOS: MARK LIGHTERMAN

TAMS President Peter Irion and Kathy Freeland, past Michigan TAMS president and anniversary celebration co-organizer, make the first cut into the TAMS 50th Anniversary cake.

Tom Klunzinger tries on the highly treasured TAMS tam o'shanter he received for his winning bid at a fund-raising auction held as part of TAMS' 50th anniversary banquet.

rocketed, and we are actually loosing a small amount of money on these medals. I do not want to raise the price of the medals, but am asking the few people who did place their orders and pre-pay to please consider making an additional donation to TAMS. This would be a kind gesture on their part and help recover our costs for these awesome medals. The overall mintages will be less than 50 in silver and probably less than 60 in nickel. Don will report the final mintage numbers soon.

Marc Ricard (left) and his father, Charles, flank ANA President Cliff Mishler at TAMS' 50th anniversary and Mich-TAMS 45th anniversary banquet in Dearborn, Michigan, last November. Mishler and Charles Ricard participated in the TAMS organizational meeting in November 1960.

As always, I want to report that your TAMS Library continues to grow and is being used quite frequently. New additions include the second edition of *Agricultural and Mechanical Society Award Medals of the United States* by Andrew Harkness and *A Modern Illustrated Catalog of Medals, Plaques and Tokens for President and Rough Rider Teddy Roosevelt* by Phillip Gotner.

In addition, Paul Lajoie has donated several boxes of past issues of *The Numismatist*, for which we are very thankful, and Harold Thomas has donated several-super heavy boxes of all sorts of newsletters, journals and magazines. These are all very welcome additions to your TAMS Library!

I continue to be get lots of requests via e-mail to research various tokens and medals. Many are challenging projects for me, as some of the pieces are modern and not much reference material has been published on them. Please be patient with me.

As always, please feel free to send me your thoughts, comments and suggestions for improvement. My e-mail address is: petervt@aol.com.

Happy collecting and happy new year!

Peter

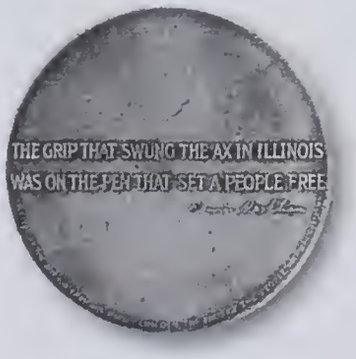
$$•VERY HIGH DOLLAR AMOUNTS PAID FOR•$$

Lincoln Medals

Newly revised want list for Abraham Lincoln medals by Charles Calverley (with right-facing portrait) that have been struck by ***Medallic Art Company*** *in New York City and later in Danbury, Connecticut.*

The striking of these Lincoln medals began in 1909 (the centennial of Lincoln's birth), continuing through 1988. There are 17 different varieties, with many medals issued in **two sizes**, struck for various events over the years. Each has different legends representing several institutions and/or companies; and **one individual** as his personal medal (token), all of which have been struck in bronze and some in fine silver.

I am willing to pay VERY HIGH, UNPRECEDENTED DOLLAR AMOUNTS for several of these Calverley-Lincoln medals I desperately still need. There are several varieties of these Lincoln medals I need to help illustrate a *TAMS Journal* article I am writing in the near future about **Abraham Lincoln medallions, galvano plaques and medals** that use the Lincoln image work of the late artist Charles Calverley (1833-1914).



Contact me if you have any of the following Calverley-Lincoln medals:

1) 2 11/16-inch medal with reverse that reads "THE GRIP THAT SWUNG THE AX IN ILLINOIS WAS ON THE PEN THAT SET A PEOPLE FREE."

2) 2 11/16-inch medal with reverse that reads "WITH MALICE TOWARD NONE...," especially any still in their **original boxes** and also any struck in **fine silver**.

3) 1⅜-inch gold-plated medal with pendant loop and necklace ring.

4) 3⅝ x 2⅝ inches plaquette with nine lines beginning "WITH MALICE TOWARD NONE..." All are struck in bronze and in fine silver.

5) 2-inch award medal with no obverse legend and reverse showing only the lighted lamp of knowledge above an oak and laurel wreath. My offer price **doubles** if your specimen has been engraved to an awardee.

6) 1⅜-inch medal with obverse legend that reads "1865-1965 2ND INAUGURAL CENTENNIAL – ABRAHAM • LINCOLN". All are struck in bronze and in sterling silver, plus a few in 14-karat gold.

7) 1 5/16-inch medal with reverse that reads "MAX M. SCHWARTZ NEW YORK CITY" in the center.

8) 2½-inch medal (unsigned at the shoulder, but C. Calverley's work), with reverse showing the 19th-century façade of **Ford's Theatre**. Struck in bronze and in fine silver.

TOKEN & MEDAL

NEWS

Freeland Signs on as TAMS Secretary

Michigan collector Kathy Freeland has been appointed secretary of the Token and Medal Society. She replaces Rachel Irish who retired from the position at the end of 2010.

Freeland is a past president of the Michigan Token and Medal Society and the Flint Flying Eagle Coin Club. She is an award-winning exhibitor and a certified American Numismatic Association judge. Freeland holds a bachelor's degree in elementary education from Michigan State University, and master's degrees in reading and library science.

Kathy Freeland

"To me," says Freeland, "the most appealing thing about numismatics is the opportunity to meet and visit with many diverse people who have a passion for collecting."

Dairy Token Researcher Dies

Token collector and author Melvin Reiter, 85, of East Lansing, Michigan, died on November 29, 2010.

A retired architect, Reiter specialized in dairy tokens and was active in the Michigan Token and Medal Society (Mich-TAMS). In 1976 he released a 51-page listing of tokens in a plain binder. His interest and collection grew, and in 2002 he completed his magnum opus, the 1,204-page *Catalog of Dairy or Milk Tokens and Related Exonumia*, published by Michigan Exonumia (Paul Cunningham).

Reiter attended the November 26, 2010, banquet in Dearborn, Michigan, marking TAMS' 50th Anniversary and Mich-TAMS' 45th anniversary. Memorial contributions can be made to the Michigan Token and Medal Society, c/o TAMS Treasurer Mark Lighterman, 5224 West SR 46, #408, Sanford, FL 32771.

Northeast Token & Medal Society Issues Newsletter

TAMS member Jim Majoros of Toms River, New Jersey, reports that the Northeast Token & Medal Society, an arm of the New Jersey Exonumia Society, now publishes a quarterly newsletter. The Society focuses on the exonumia of Maine, Vermont, New Hampshire, New York, Massachusetts, Connecticut, Rhode Island, Pennsylvania and New Jersey. The initial newsletter is 16 pages, and touches upon issues from each state.

"The organization is led Peter Wacker of the Department of Geography at Rutgers University, and the newsletter is edited by Gary Patterson, who has done a brilliant job," writes Majoros. "Like every numismatic editor, Patterson is looking for additional material to include in the next newsletter."

Annual membership in the Northeast Token & Medal Society is $8 for adults, $5 for juniors under age 18. For more information, contact Treasurer Bob Schopp,16 Sanbert Cir., Hamilton Square, NJ 08690-2510. Contact Editor Gary Patterson at *gptokens@comcast.net* or President Peter Wacker at *powacker@reirutgers.edu*.

Johnson Acquires Schenkman Database

An extensive database of American die-sinkers and engravers, compiled over a 45-year period by token expert and TAMS board member David Schenkman, was recently acquired by exonumist and author D. Wayne "Dick" Johnson, who plans to merge it with his own "Databank of American Coin and Medal Artists." Schenkman compiled the information as an aid in cataloging his own collection, his work as editor of the *TAMS Journal*, his writings in the field, and his lectures on tokens at annual American Numismatic Association Summer Seminars in Colorado Springs.

"I had artists of medallic works in my databank," Johnson says. "Dave's information was focused on token die-sinkers and engravers —a perfect complement to what I had already compiled."

Schenkman's 247-page list comprises 769 entries, while Johnson's database catalogs 3,587 artists and 635 producers. Johnson says merging the two databases will take several months and that he intends to place the finished product on the Internet for widespread access.

Reed to Take Helm of TAMS Journal

Fred Reed will become editor/publisher of the *TAMS Journal* with the next issue. An award-winning journalist, editor, author and publisher, Reed is a regular contributor to a number of numismatic and general news publications. Since he assumed the editorship of *Paper Money*, published by the Society of Paper Money Collectors, the journal has received a string of honors. Reed can be contacted at P.O. Box 118162, Carrollton, TX 75011-8162; e-mail fred@spmc.org.

Pocket Watch Keys and the Patent of 1874

Much like tokens, watch keys carried advertisements for 19th- and 20th-century jewelers and makers of time pieces.

by Charles B. Wallace

POCKET WATCHES ONCE were common time pieces. First produced in the 16th century, they gained in popularity 300 years later when their manufacture turned from custom-made to mass production.

Up to the middle of the 19th century, pocket watches, like their big-brother clocks, were wound by a key placed in the back. To remain accurate, pocket watches needed to be cleaned and oiled once a year, especially since the time pieces were stuffed in vest or trouser pockets, where they picked up lint, dirt and other contaminants. This meant returning to or finding a jeweler or watchmaker who could do the delicate work.

In 1887 Kendrick & Davis issued three styles of watch keys. Style A, shown here, bears the jeweler's or watchmaker's message on a shield-shaped panel.

PHOTOS: CHARLES WALLACE

Watch keys came in a variety of shapes and sizes and were often attached to chains or fobs on pocket watches. These keys frequently carried the name of a jeweler or watchmaker. Such tokens accompanied new watch sales or were given to remind customers where to return for annual service.

A number of manufacturers of these watch keys bore advertising. My intent is to focus on those keys stamped with the patent date of September 1, 1874. The patent, obtained by Williams & Cooke of Duluth, Minnesota, was for the "slots" in the side of the key, which prevented it from getting gummed up with dust in the course of daily use.

Two firms made these patented keys. One was Derby & Hall, which produced keys prior to 1876. The other firm, Kendrick & Davis of Lebanon, New Hampshire, was primarily a watch tool manufacturer and the principal producer of these advertising keys up through the early part of the 20th century,

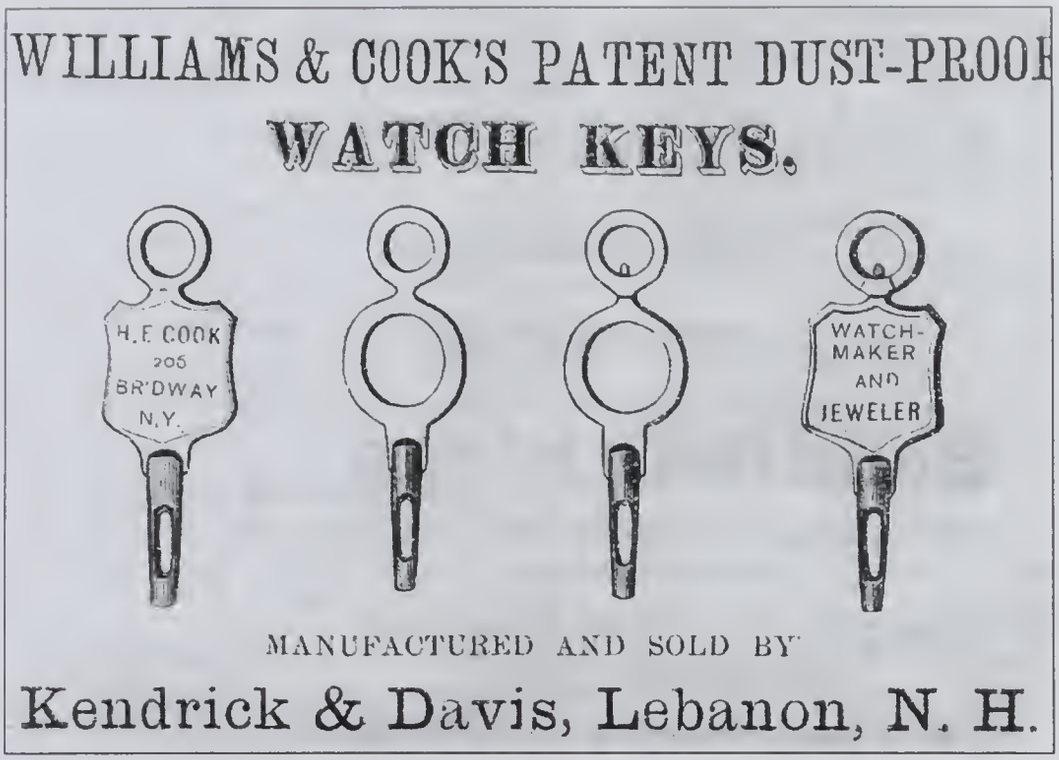
Shown are the obverses (top) and reverses of more Style A watch keys. A page from a contemporary Lapp & Flershem catalog (above right) illustrates an assortment of dust-proof keys.

when stem winding replaced the watch key and wrist watches began replacing pocket time pieces. (I have been unable to find additional information about the Derby & Hall and have only one example of a key with the firm's mark on the top ring. I have two watch keys marked "Kendrick & Davis." All the rest in my collection bear only the patent date.)

Kendrick & Davis, started operations in 1876 with six employees. Eventually 115 worked at the plant to meet demand, according to a December 1889 article in *Jewelers Circular and Horological Review*. The company

Style B, illustrated here by obverses (left) and reverses for keys issued for J.H. Post and Ezra Nuckolls, carried the advertiser's name on a second ring.



These examples of Style C keys (below) have no advertising. At the left, an ad in an 1876 edition of the *Jewelers Circular and Horological Review* promotes Kendrick & Davis.

Styles D and E (obverses and reverses, below right) did not feature swivel rings. A 1904 Kendrick & Davis catalog (below left) highlights various products.

Name Keys A. Nickel Plated ..... per gross, $9 00

Name Keys B.
Name Keys B. solid Nickel. ..... per gross, $10 50

First orders for name keys must be not less than one gross, or the necessary dies, etc., will be charged extra.

For Rolled Gold Plate, Solid Gold and Silver Watch Keys, see Jewelry Material pages

Two keys have been found to match corresponding pocket watches produced by Tisdale & Son and Cyrus N. Gibbs (obverses are shown at the top left, reverses at the right). The Tisdale time piece is pictured below.

was noted for producing the simple key using 47 "distinct operations."

The article also reported that "Kendrick & Davis was the only American manufacturer of these keys . . . [and] that the quality of their goods has driven the foreign key out of the American market." The article goes on to state that as of 1889, the company had on hand "steel dies bearing the names of nearly 5,000 jewelers who are using these goods."

Each "name key" bore the patent date and came in four basic, dust-proof styles.Three keys carried the issuers name, and one style had no advertising. (At this point in time, I have cataloged about 130 different examples.) All had an obverse and reverse die; most of the reverse dies were "stock," numbering 1 through 58.

In 1887, three styles of keys were offered—A, B and C. Styles A and C were still being offered in the 1904 catalog, but Style B was dropped in favor of new styles D and E, which did not have a swivel. In general, all the key styles, at one time or another, were marked with the size of the hole for winding. The winding squares were sized by number—1 through 12.

These keys were sold by the gross, and the price included personal advertising on the obverse. In 1904 the Kendrick & Davis keys ranged from $5.50 to $10.50 per gross. If the stock die reverse was changed, an additional $1.25 was charged. There were 58 stock reverse dies.

It is interesting to note the survival rate of these keys. I have never seen more than three of any one name. For most, only a single example exists, despite that jewelers bought them by the gross.

In collecting pocket watches, one finds a number of "private label" pocket watches on which jewelers placed their names on the plates or dials. I was able to match two such watches with their corresponding keys. One was made by the Fadonia Watch Company and is signed on the movement "Cyrus N. Gibbs, South Framingham." The key is similarly identified. The second watch was manufactured by Rockford Watch Company and signed on the movement by "Tisdale & Son, Taunton," as was the key.

I would like to hear about additional watch keys. Contact me by e-mail at CBWPackard@comcast.net. ❍

Medals for a Liberator

More than 400 issues commemorate South American emancipator General José de San Martin, many of which were issued upon the centennial of his death.

by Donald H. Dool

I COLLECT NUMISMATIC ITEMS pertaining to General José de San Martin, the liberator of Argentina, Chile and Peru. This specialty area includes over 400 medals, a large number of which were produced for the 100th anniversary of his death in 1950—a year designated as "Año del Libertador."

During a trip to Buenos Aires last March, I visited Centro Filatélico Numismático Ituzaingo (CiFiNi), a philatelic/numismatic society. There, I discussed with staff members the quantity of San Martin medals struck 60 years ago. Returning home, I did some research and found references to the medals in a number of books, adding to the information I had gleaned from the 40 examples in my personal collection (see table below). There are probably others and possibly some that were issued without a date.

Five of the 1950 medals listed in *Numismatica Sanmartiniana* are gold;

General José de San Martin Centennial Medals
as observed in references and the Donald H. Dool Collection

REFERENCES	NO. OF ISSUES	NO. OF VARIETIES	TOTAL

Martinez (Historia, Subterraneo, Linea "A")			1
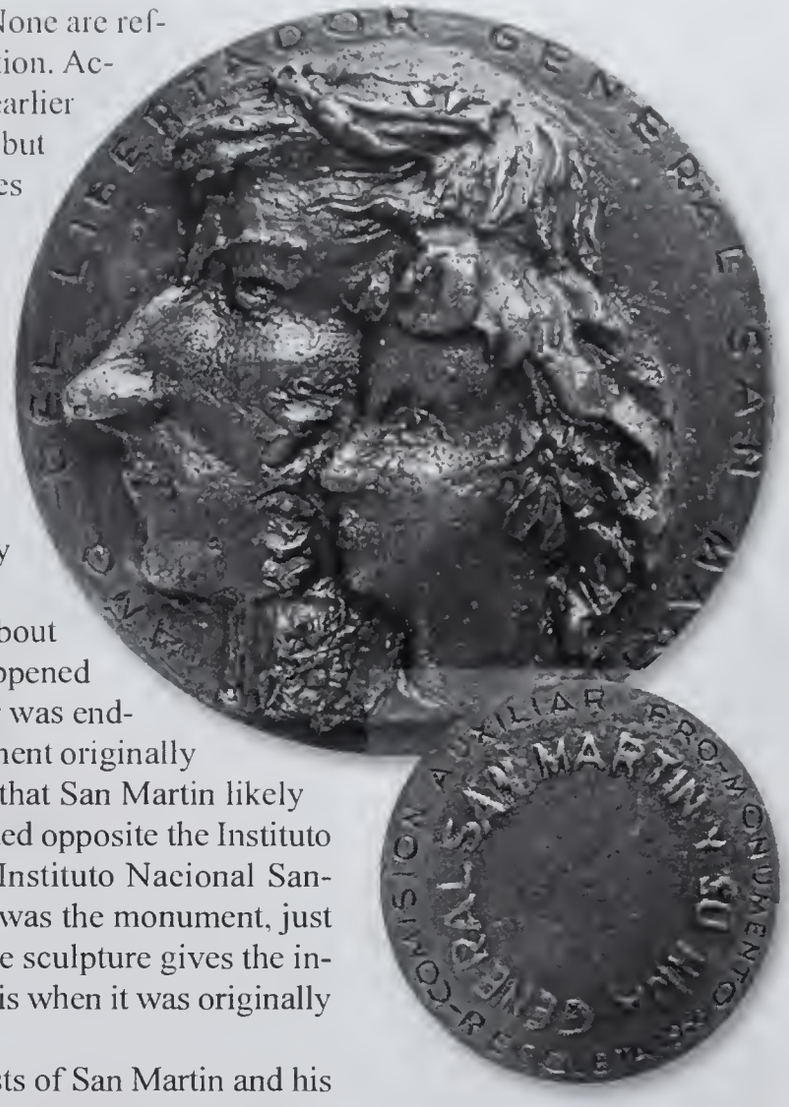
Unlisted			17

only 10 other gold medals are listed prior to 1950. None are referenced in the Museo de los Corrales Viejos collection. According to *Numismatica Sanmartiniana*, two of the earlier ones, 201 and 201B, were in Museo Mitre in 1950, but I suspect they were issued in very limited quantities and may have gone to the melting pot.

A discussion of the 40 items in my collection is outside the scope of this article. Thus I present a sampling here, starting with the largest and heaviest piece, which is a bit of a mystery. It was issued to raise funds for a monument to be located at the Recoleta cemetery in Buenos Aires in front of the tomb of San Martin's wife. However, I found no monument there, so I assumed not enough money was raised and the project never came to fruition.

For several years, I tried to obtain information about the monument, without success. Then, one day, I happened to be standing by the tomb in question just as a tour was ending. I was in luck. The tour guide told me the monument originally was built in front of the tomb. Later it was decided that San Martin likely would not approve of its placement, so it was relocated opposite the Instituto Nacional Sanmartiniano. The next day, I went to Instituto Nacional Sanmartiniano to verify the story, and across the street was the monument, just as the guide had described it. A plaque on the elusive sculpture gives the inauguration date as August 17, 1950, which probably is when it was originally erected in Recoleta.

The obverse of the medal features left-facing busts of San Martin and his wife, surrounded by the motto AÑO DEL LIBERTADOR GENERAL SAN MARTIN. Along the reverse perimeter is COMISION AUXILIAR PRO-MONUMENTO–RECOLETA 1950–, with GENERAL SAN MARTIN Y SU HIJA on the inside. Sculpted by Horacio Juárez and listed as Burzio 489, the piece weighs 473g, measures 93mm in diameter and, at its thickest point, is about 12mm.



Busts of San Martin and his wife grace the obverse of this medal (Burzio 489).

Actual Size: 93mm

PHOTOS: DON DOOL

Another piece is equally enigmatic. The issuer, Klöckner, no longer seems to exist, and R. Gutierres, whose name is crudely engraved on the reverse, is unknown. On the obverse is a three-quarter bust to the right, with 1950 ANO DEL LIBERTADOR GENERAL SAN MARTIN along the perimeter. The reverse legend reads HOMENAJE EN / EST KLÖCKNER / 21-VII-1950. Gutierres' name is engraved on the reverse. The piece weighs 10.5g and measures 31mm.

The next medal gives rise to some interesting speculation.

This monument of San Martin with his two granddaughters originally stood in the Recoleta Cemetery. It later was moved opposite the Instituto Nacional Sanmartiniano.

The medal (top) depicts a statue of San Martin on horseback. This statue in a Buenos Aires park, is unlike most equestrian sculptures of the great liberator, including those in New York City and Washington, D.C. The horse has all four feet on the ground, and San Martin's arm is not raised. Actual Size: 35mm

This medal bears a three-quarter portrait of San Martin on the obverse. The significance of the name engraved on the reverse, R GUTIERRES, is unknown.

Actual Size: 31mm

Numismatica Sanmartiniana notes three varieties: 496, gold; 496a, silver; and 496b, silver-plated bronze. My example has sort of a silvery finish, but must be analyzed to be certain. A previous owner also seems to have had reservations and penciled in "496c" on the reverse.

The obverse shows an equestrian sculpture of San Martin below the legend MORÓN AL PADRE DE LA PATRIA, with the dates1850 and 1950 on either side. The reverse reads INAUGURACIÓN DEL MONUMENTO / AL LIBERTADOR / GENERAL JOSÉ DE SAN MARTÍN / JUNIO DE 1950. Its weight is 16.7g, and the diameter 35mm.

Apparently the first World Basketball Championship coincided with Año del Libertador, leading to a medal that commemorates both. For some reason, the obverse has nothing to do with either, but pertains to the founding of Buenos Aires. This obverse was first used on a 1935 medal commemorating the dedication of Corrientes Avenue and again in 1949 on a medal commemorating the IV Congreso Histórico Municipal Interamericano.

Seven medals are listed in Burzio's *Buenos Aires en La Medalla* as commemorating the 4th centenary of the first founding by Mendoza, but none specifically for the second founding by Garay. Possibly there was to be a medal, but it was not issued. Rather than let the die go to waste, it was used on these three issues, lowering the cost of their production.

The release of this medal coincided with the San Martin centennial and the first World Basketball Championship in Argentina in 1950.

Actual Size: 57 x 78mm

The obverse bears a reproduction of the Moreno Carbanero painting thar depicts the second foundation of Buenos Aires. Below is FUNDACION DE LA CIUDAD DE BUENOS AIRES / POR DON JUAN DE GARAY EL 11 DE JUNIO DE 1580. On the reverse is 1ER CAMPEONATO MUNDAIL DE BASKET BALL. Attributed as Burzio 4587, the piece is gilt bronze, weighing 112.5g and measuring 57 x 78mm.

I have two examples of the medal pictured at the right—one enameled and one plain. The obverse depicts a banner in field over BANDERA DEL EJERCITO DE LOS ANDES. The reverse reads ADHESION DE AGUA Y ENERGIA ELECTRICA / E.N.D.E. / AL / AÑO DEL LIBERTADOR / GRAL SAN MARTIN / (three, blank, engravable spaces) / 1950. The name R. COLOSIMO, in small letters, appears along the rim at 5 o'clock. In 1950 Agua y Energia Electrica merged into Empresa Nacional de Energia (E.N.D.E.). The 11.7g, 31mm medal has no attributions.

Commemorating both the Year of the Liberator and a plastics exposition, the last piece discussed here is made of plastic. The obverse bears a bust of an old San Martin, three quarters to the left, with AÑO DEL LIBERTADOR GENERAL SAN MARTIN above, and PRIMERA EXPOSICION DE LA INDUSTRIA PLASTICA ARGENTINA • 26-X-9-XI • along the perimeter. The reverse bears an embossed pattern, and along the perimeter is CAMARA ARGENTINA DE MOLDEADORES PLASTICOS • 1950 •. Attributed as MFM 152.3, the piece weighs 6.4g and measures 41mm in diameter.

Readers with questions or comments, or who would like a complete listing of the 1950 issues, can reach me at dool@comcast.net. ○

This enameled piece dated 1950 is unattributed.

Actual Size: 31mm

MAVERICKS

by John D. Mutch

Google was recently in the news for its new "instant search" feature whereby it anticipates, based on some sort of statistical calculation, what you are going to search for after you have typed the first letters of a search term. They have implemented this feature in a rather useful way for searching mavericks in Google Maps.

If you just have an address on a maverick, you can key it in and Google Maps will show a number of towns where the address appears. Of course, this will only yield a suggestion of where the maverick may be from, and it probably is only valid for larger towns. However, this source still may prove useful in some situations.

A downside to searches with Google, as with all the other major search engines, is that they are funded by advertisers. So, if one uses search terms containing "hotel" or "café" or a lot of other words, the online travel agencies, business directories and the like try to put their pages in front of you. They would love to make a reservation for you! Surely there is a way to avoid all this clutter, but I have yet to find it.

Issuer: JAMES DAHL / COPPER CANYON, Copper Canyon Mine, Galena Precinct, Lander County, NV
Attributed by: John Mutch, Fred Holabird, John Hoffman, Tom Casper, Dean Rasmussen
References: 1920 Census (James Dahl—Copper Canyon—Owner—Gold Mine); *Romancing Nevada's Past* by Shawn Hall ("The Dahl Placers, located at Natomas, were also important producers. James Dahl controlled 25 claims...")
Comments: Fred Holabird indicates, "It is not a token, but rather a man-check for underground work, where one piece was put on the miner's belt when he went underground, and the other on a peg board outside the portal of the mine. This is the custom for underground work, so managers know who is underground in case there is a cave-in or accident."

Corrections

1412
WOODBINE / W.W. Delete attribution to Woodbine, KS, as Oller & Johnson have withdrawn the attribution in their Kansas Book.

3663
SOFSPRA CAR WASH / HOPEWELL SHOPPING CENTER. Delete attribution to Fayetteville, New York, as it is not in the North American Car Wash Tokens book.

4145
ST. ELMO BAR / L.W. DITTMAN. Delete attribution to Denver, CO. The attribution was based on a St. Elmo Bar token in Wright & Nott's Colorado book, but it is not the same as this one. The attribution was then carried into Pritchard's Colorado Book.

4421
J. C. KIRKPATRICK. Delete attribution to Bellefontaine, OH, as Dale Wilges, Richard Greever, & Louie Stubler indicate the reference is too late for a BBC token and the James Kirkpatrick in Ohio apparently did not have or use a middle initial.

5348
H. L. ZIMMERMAN. Delete attribution to Orrville, OH, as per John Byars the Ingle shipping records show 1910 shipment to Akron, Ohio.

5786
SHOE RENTAL. Delete attribution to San Jose, CA, as this is not the same as listed in Kappen's California Book.

8081
WOODBINE / W.W. Delete attribution to Woodbine, KS, as Oller & Johnson have withdrawn the attribution in their Kansas Book.

11495
LOWE BROS. Delete attribution to Fulton, KY, as Ingle Shipping records indicate Paducah, Kentucky.

15002
J. H. Mc C. & CO. Delete attribution to Portland, OR, as no references found to support it. (See attribution above.)

New Listings

The *TAMS Journal* welcomes submissions for this column. Send actual tokens for attribution to: **Mavericks Editor John D. Mutch, 7931 Crestwood Drive, Boise, ID 83704-3022.** Package specimens securely; include stamps or check (made out to John Mutch) to cover the cost of return postage and insurance (include valuation).

Please do not send photographs or rubbings. Also, do not submit "initials only" or "numbers only" pieces, as these have little chance of attribution. Readers who have mavericks they would like identified using the TAMS database are invited to contact Mutch via USPS or e-mail (tokens@idahovandals.com).

TAMS JOURNAL

INFORMATION FOR ADVERTISERS

Advertising Restrictions

All advertisers must subscribe to the Token and Medal Society's code of ethical standards. The editor is vested with the right to reject any advertising he feels is not in keeping with the objectives of the Society. All ads are priced on a CASH IN ADVANCE basis. Further informationregarding advertising is available by contacting the editor/publisher.

Classified Advertising

Classified ads, up to 25 words, are free to all TAMS members. Only one complimentary ad per member per issue can be accepted. All free classifieds must be re-submitted for each issue. Members submitting ads in excess of 25 words agree to pay 10 cents for every word over the 25-word maximum per insertion.

Mail-Bid Advertising

Closing dates listed in mail-bid ads should be set six weeks after the issue date of the *TAMS Journal* in which the ad is inserted. While the Token and Medal Society endeavors to place issues in the hands of its members no later than two or three weeks following the issue date, it is not obligated to do so. All ads for mail bids must include any rules that apply to the sale in question; the term "usual rules" is not acceptable.

Advertising Rates

The rates listed below are for camera-ready copy only. Advertisers must supply all text and art work; electronic files and high-resolution (300 dpi) images are preferred. Advertisers may be assessed an additional charge for layout and typesetting; arrangements should be made in advance with the editor/publisher.

Contract Rates

SIZE	1 ISSUE	3 ISSUES	6 ISSUES
Full Page (7.125" x 9.5")	$125	$340	$640
Half Page (7.125" x 4.438")	$ 65	$175	$320
Quarter Page (3.427" x 4.438)	$ 40	$110	$210
Eighth Page (3.427" x 2.093")	$ 25	$ 70	$130

The above rates apply only when the same advertisement is run for the length of the contract. If ad copy is changed during the contract term, an additional charge may apply. The rate for advertisements on the outside back cover, inside front cover or inside back cover is $150 per issue on a contract basis, subject to prior arrangement; color is available for an additional charge. Advertisers may insert flyers in the envelopes in which the *TAMS Journal* is mailed. Contact the editor/publisher for additional information.

Publication Deadlines

AD COPY TO EDITOR	ISSUE DATE
December 1	February 1
February 1	April 1
April 1	June 1
June 1	August 1
August 1	October 1
October 1	December 1

TAMS Journal cannot guarantee insertion of any editorial contributions or advertising copy received after the deadlines noted above, nor can it guarantee the accuracy of such items.

A Gentle Reminder

If you have not already done so, please . . .

Pay Your 2011 TAMS Dues

U.S. and Canada: $25
All Others: $50

U.S. funds only. Do not send cash. Make all checks or money orders payable to TAMS.
Send to Mark Lighterman, 5224 W. State Rd., #408, Sanford, FL 32771-9230.

Payments now can be made via PayPal!

INSTRUCTIONS: You must have a PayPal account. Sign on to your account and select "Send Money." Direct your payment to tamspayment @tokenandmedal.org. After entering the payment address and amount, PayPal will direct you to a page where you can add a note and confirm your payment; please indicate your name and TAMS membership number to ensure your dues are properly credited to your account.

TAMS Marketplace

Each member is entitled to one free "Marketplace" classified of 25 words per issue. Additional words (or ads) are accepted, but must be accompanied by payment of 10¢ per word. Ads over 25 words that are not accompanied by payment will be edited to the 25-word limit.

Only ads related to exonumia will be accepted and must be different for each issue. Ads for up to three issues can be submitted at one time; each should be printed or typed on a separate sheet of paper or e-mailed as separate attachments. Send to TAMS Editor/Publisher Fred Reed; P.O. Box 118162, Carrollton, TX 75011-8162; e-mail fred@spmc.org.

Buying and selling: Jewish-related coins, tokens, paper—all types of exonumia and ephemera. Bill Rosenblum, P.O. Box 785, Littleton, CO 80160-0785. Bill@Rosenblumcoins.
